

SEVENTEENTH CONGRESS OF THE )  
REPUBLIC OF THE PHILIPPINES )  
First Regular Session )

'16 JUL 21 AM 11:10

SENATE

S. B. No. 765

RECORDED BY: 

---

Introduced by Senator FRANCIS G. ESCUDERO

---

**AN ACT  
ORDAINING THE DEVELOPMENT OF THE DOWNSTREAM NATURAL GAS  
INDUSTRY, CONSOLIDATING FOR THE PURPOSE ALL LAWS RELATING  
TO THE TRANSMISSION, DISTRIBUTION AND SUPPLY OF NATURAL GAS  
AND FOR OTHER PURPOSES**

**EXPLANATORY NOTE**

Natural gas is considered by many modern economies as the fuel of choice because of its abundance, clean-burning properties and versatility as a fuel source. With the successful launching of the Malampaya Deep Water Gas-to-Power Project on October 16, 2001 marked the birth of the country's natural gas industry. The Malampaya gas field discovery signaled a significant leap towards energy self-reliance as it now fuels about one-third of the country's total power generation. A total of 2700 MW of installed capacity of gas-fired power plants make use of the natural gas produced from Malampaya.

Aside from the use of natural gas for power generation, alternative applications in the transport sector is also being pursued. The launching of the Natural Gas Vehicle Program for Public Transport (NGVPPT) on October 16, 2002 served as a banner program for the use of natural gas in the transport sector.

Following the inauguration of the Malampaya Deep Water Gas-to-Power Project, government advocacy has been initiated to create an impetus to the development of the country's downstream natural gas industry. These are the (i) signing on January 18, 2002 by President Gloria Macapagal-Arroyo of Executive Order No. 66 designating the Department of Energy (DOE) as the lead agency for the development of the country's natural gas industry; and (ii) issuance on August 27, 2002 by the DOE of the interim rules and regulations governing the transmission, distribution and supply sub-sectors of the natural gas industry.

However, both issuances are not sufficient to impart a clear, comprehensive and integrated regulatory framework that will provide direction and to accelerate the development of the country's nascent downstream natural gas sector.

As dynamic developments are taking place in this very young sector, it is imperative that conditions favorable to the establishment of the critical infrastructure and natural gas market are put in place to optimize economic efficiency and returns from the downstream natural gas industry.

The foregoing premises thus necessitate the immediate passage of the Natural Gas Bill, which proposal has remained pending for a considerable time to date.

A handwritten signature in black ink, appearing to be 'F. G. Escudero', written in a cursive style with a horizontal line through the middle.

**FRANCIS G. ESCUDERO**

SENATE

S. B. No. 765

RECEIVED BY: 

Introduced by Senator FRANCIS G. ESCUDERO

AN ACT  
ORDAINING THE DEVELOPMENT OF THE DOWNSTREAM NATURAL GAS  
INDUSTRY, CONSOLIDATING FOR THE PURPOSE ALL LAWS RELATING  
TO THE TRANSMISSION, DISTRIBUTION AND SUPPLY OF NATURAL GAS  
AND FOR OTHER PURPOSES

*Be it enacted by the Senate and the House of Representatives of the Republic of the Philippines in Congress assembled:*

CHAPTER I  
TITLE AND DECLARATION OF POLICY

SECTION 1. *Short Title.* – This Act shall be known as the “*Downstream Natural Gas Industry Development Act*”.

SEC. 2. *Declaration of Policy.* – It is hereby declared the policy of the State:

(a) To promote the role of natural gas as a socially-acceptable, environment-friendly and economically efficient source of energy by creating favorable conditions for establishing a Downstream Natural Gas Industry for the benefit of all segments of the nation’s population and all sectors of its economy;

(b) To ensure the safety, quality, reliability and security of the transmission, distribution and supply of natural gas;

(c) To ensure transparent and reasonable rates and prices of natural gas transmission, distribution and supply in a regime of open and fair competition and full public accountability that will promote greater operational and economic efficiency and the enhanced competitiveness of the Philippine products in the global market;

- 1 (d) To encourage the inflow of private capital in providing the infrastructure  
2 and services necessary to support an expanded role of natural gas in the  
3 nation's energy supply;
- 4 (e) To protect the public interest as it is affected by the quality of, and rates  
5 charged for, the transmission, distribution and supply of natural gas and  
6 related services;
- 7 (f) To assure the development of a Downstream Natural Gas Industry  
8 infrastructure that is socially-acceptable and compliant with existing  
9 environmental laws;
- 10 (g) To ensure that the Downstream Natural Gas Industry shall be regulated in  
11 a manner that will ensure the quality, reliability, security and  
12 reasonableness of charges for the transmission, distribution and supply of  
13 natural gas, encourage private investment in the Downstream Natural Gas  
14 Industry and promote the efficient and competitive operation thereof;
- 15 (h) To develop the necessary trades, technical expertise and skills to support  
16 the Downstream Natural Gas Industry;
- 17 (i) To facilitate the development of end-uses of natural gas that promotes fuel  
18 diversity and compliance with existing environmental laws including, but  
19 not limited to, the use of natural gas as a motor vehicle fuel; and
- 20 (j) To encourage equity participation in gas transmission utilities and gas  
21 distribution utilities by the private sector.

22 SEC. 3. *Scope.* - This Act shall provide a framework for the development of a  
23 Downstream Natural Gas Industry and its transition from an emerging to a mature  
24 industry status and competitive natural gas market, and define the responsibilities of  
25 various government agencies and private entities in furtherance of this national goal.

26 All activities of the Department of Energy (DOE) and the Energy Regulatory  
27 Commission (ERC) relevant to the development and regulation of the Downstream  
28 Natural Gas Industry shall be in accordance with this Act.

29 SEC. 4. *Definition of Terms.* - As used in this Act, the following terms shall  
30 have the following meanings:

- 1 (a) "Captive market":
- 2 • with respect to the transmission of natural gas, refers to natural gas
  - 3 end-users who do not have a choice of a gas transmission utility;
  - 4 • with respect to the distribution of natural gas, refers to natural gas end-
  - 5 users who do not have a choice of a gas distribution utility;
  - 6 • with respect to the supply of natural gas, refers to natural gas end-
  - 7 users who do not have a choice of supplier of natural gas or other
  - 8 economically competitive energy substitute;
- 9 (b) "Congress" refers to the Congress of the Republic of the Philippines;
- 10 (c) "Contestable market" is a market that is not a captive market;
- 11 (d) "Delivery" refers to the transmission or distribution of natural gas and the
- 12 supply of natural gas, at wholesale or retail;
- 13 (e) "Department of Energy" or "DOE" refers to the government agency
- 14 created pursuant to Republic Act No. 7638, as amended
- 15 (f) "Department of Environment and Natural Resources" or "DENR" refers to
- 16 the government agency created pursuant to Executive Order Nos. 192 and
- 17 292, as amended;
- 18 (g) "Distribution" refers to the conveyance of natural gas by a gas distribution
- 19 utility through its gas distribution system;
- 20 (h) "Downstream Natural Gas Industry" refers to the transmission,
- 21 distribution and supply of natural gas and related activities, such as, but
- 22 not limited to, processing, storing, regasification, interconnection,
- 23 measurement and/or metering;
- 24 (i) "End-user" refers to any person that will receive delivery of natural gas
- 25 for its own use;
- 26 (j) "Energy Regulatory Commission" or "ERC" refers to the independent
- 27 quasi-judicial regulatory agency created pursuant to Republic Act No.
- 28 9136, otherwise known as the "Electric Power Industry Reform Act of
- 29 2001", whose expanded functions are provided in this Act;

- 1 (k) "Franchise" refers to the right, privilege and authority issued by Congress  
2 authorizing a person to engage in the transmission of natural gas and/or  
3 distribution of natural gas within a specific geographical area;
- 4 (l) "Franchise area" refers to a geographical area assigned or granted under a  
5 franchise;
- 6 (m) "Gas Distribution Code" refers to the code to be formulated by the DOE  
7 pursuant to Section 5(g) of this Act that sets the technical performance  
8 standards for operating gas distribution utilities and the minimum  
9 financial standards for gas distribution systems;
- 10 (n) "Gas distribution system" refers to the system of pipelines and related  
11 facilities extending from the delivery points where the gas distribution  
12 system receives the natural gas to the point of connection to the premises  
13 of the end-user;
- 14 (o) "Gas distribution utility" refers to any person that has a franchise to  
15 operate a gas distribution system;
- 16 (p) "Gas supply contract" refers to a contract between a supplier and a  
17 purchaser for the supply of natural gas;
- 18 (q) "Gas Transmission Code" refers to the code to be developed by the DOE  
19 pursuant to Section 5(g) of this Act that sets the technical performance  
20 standards for operating gas transmission systems and the minimum  
21 financial standards for gas transmission utilities;
- 22 (r) "Gas transmission system" refers to the system to the system of high  
23 pressure pipelines, storage and related facilities that are used to transport  
24 natural gas from the interconnection with gathering facilities, liquefied  
25 natural gas (LNG) regasification facilities or other gas transmission  
26 systems to gas distribution systems, other gas transmission systems or  
27 end-users;
- 28 (s) "Gas transmission utility" refers to any person that has a franchise to  
29 operate or intending to operate a gas transmission system except own-use  
30 pipelines;

- 1 (t) "Gathering facilities" refers to natural gas pipelines and related facilities  
2 used to gather gas in the field and bring it to a location for processing or  
3 for delivery at an interconnection with the gas transmission system. The  
4 terms "gather" and "gathering" shall be construed accordingly;
- 5 (u) "Infrastructure development period" refers to the period prescribed in  
6 Chapter IV of this Act;
- 7 (v) "Joule" refers to the unit of energy or work done when the point of  
8 application of a force of one Newton is displaced a distance of one meter  
9 in the direction of the force. It is also equal to one watt-second;
- 10 (w) "Large end-user" refers to an end-user whose aggregate annual natural  
11 gas consumption is one thousand (1,000) gigajoules (gross heating value)  
12 or greater, as may be determined by the ERC;
- 13 (x) "LNG" refers to liquefied natural gas";
- 14 (y) "Natural gas" refers to hydrocarbons, obtained initially from sub-surface  
15 reservoirs, primarily methane, which, at atmospheric temperature and  
16 pressure, is in a gaseous phase. The term "natural gas" shall include LNG;
- 17 (z) "Permit" refers to an authorization issued by the DOE, initially, for the  
18 construction, operation, expansion and modification of gas transmission  
19 systems, gas distribution systems and for the supply of natural gas;
- 20 (aa) "Person" refers to a natural or juridical person, as the case may be,  
21 including the national and local government of the Republic of the  
22 Philippines, its agencies and instrumentalities, and government-owned  
23 and -controlled corporations;
- 24 (bb) "Petroleum operations" refers to searching for and obtaining petroleum  
25 within the Philippines through drilling and pressure or suction or the  
26 like, and all other operations incidental thereto. It includes the  
27 transportation, storage, handling and sale (whether for export or for  
28 domestic consumption) of petroleum so obtained but does not include  
29 any: (1) transportation of petroleum outside the Philippines; (2)  
30 processing or refining at a refinery; or (3) any transaction in the products  
31 so refined;

1 (cc) "Philippine Energy Plan" or "PEP" refers to the overall energy program  
2 formulated and updated yearly by the DOE and submitted to Congress  
3 pursuant to Republic Act No. 7638, as amended;

4 (dd) "Service contract" refers to the award granted by the Philippine  
5 government to a qualified person to engage in the exploration,  
6 development and utilization of natural resources \*rough joint venture,  
7 co-production, production-sharing or other similar arrangement with the  
8 State pursuant to Article XII, Section 2 of the Constitution, including  
9 service contracts under Presidential Decree No. 87, as amended;

10 (ee) "Supplier" refers to any person authorized by the DOE, initially, to  
11 engage in the supply of natural gas;

12 (ff) "Supply" refers to the domestic trading and/or sale of natural gas for  
13 wholesale or retail;

14 (gg) "Transmission" refers to the transportation of natural gas through a gas  
15 transmission system; and

16 (hh) "Unbundled service" refers to the pricing of the energy value of natural  
17 gas separately from the rates charged for natural gas transmission or  
18 distribution

19 **CHAPTER II**  
20 **POWERS AND FUNCTIONS OF THE DOE AND THE ERC**

21 SEC. 5. *Powers and Functions of the DOE.* - In addition to its existing powers  
22 and functions, the DOE shall have the overall responsibility of supervising and  
23 monitoring the development of the Downstream Natural Gas Industry and  
24 regulation of the construction and operation of natural gas pipelines and related  
25 facilities for the transmission, distribution and supply of natural gas. Towards this  
26 end, the DOE shall have the following-powers and functions:

27 (a) Prepare and periodically update a Downstream Natural Gas Industry  
28 Development Plan (DNGIDP) and integrate the same into the PEP. The  
29 DNGIDP shall consider and integrate the individual or joint development  
30 plans of the Downstream Natural Gas Industry participants pursuant to  
31 this Act, which are submitted to the DOE. Appropriate mechanisms shall  
32 be provided to protect the confidentiality of any information that is

- 1 commercially or competitively sensitive. The DOE shall publish an initial  
2 draft of the plan and undertake public consultations thereon prior to its  
3 adoption;
- 4 (b) Issue permits for the construction, operation and maintenance of pipelines  
5 and related facilities for the transmission, distribution and/or supply of  
6 natural gas;
- 7 (c) Establish standards setting forth the characteristics for classifying pipeline  
8 and pipeline-related facilities either as gas transmission systems or gas  
9 distribution systems. These characteristics may include both the physical  
10 characteristics related to the diameter, size and pressure of pipeline  
11 facilities, and the functional characteristics of such facilities;
- 12 (d) Before the end of April of each year, submit to the Office of the President  
13 and Congress an annual report;
- 14 (e) Ensure the safety, reliability, quality and security of supply of natural gas.  
15 Consistent with the development of the Downstream Natural Gas  
16 Industry, the DOE shall, among others:
- 17 (i) Encourage private sector investments in the Downstream Natural  
18 Gas Industry and promote the development of domestic markets  
19 for natural gas;
- 20 (ii) In consultation with the Downstream Natural Gas Industry  
21 participants and other government agencies, promote a system of  
22 incentives to encourage industry participants, including new  
23 producers and end-users, to provide adequate and reliable supply  
24 of natural gas; and
- 25 (iii) Undertake, in coordination with other governmental agencies, as  
26 appropriate, an information campaign to educate the public on the  
27 benefits of developing the Downstream Natural Gas Industry and  
28 the potential for utilizing natural gas as a source of energy.
- 29 (f) Within six months from the effectivity of this Act, develop plans and  
30 programs to encourage market development and customer choice;
- 31 (g) Within twelve (12) months from the effectivity of this Act, the DOE shall,  
32 preparatory to the holding of public consultations with the Downstream

1 Natural Gas Industry participants, draft *the* Gas Transmission and  
2 Distribution Codes which shall contain, among others, the following:

3 (i) Technical performance standards for gas transmission and  
4 distribution utilities: *Provided*, That in the establishment of the  
5 performance standards, the nature and function of the entities shall  
6 be considered; and

7 (ii) Minimum financial capability standards for gas transmission and  
8 distribution utilities: *Provided*, That such standards are set to ensure  
9 that the Downstream Natural Gas Industry participants meet the  
10 minimum financial standards to protect the public interest.

11 Within eighteen (18) months from the effectivity of this Act, the  
12 DOE shall, in consultation with the Downstream Natural Gas  
13 Industry participants, issue the final Gas Transmission and  
14 Distribution Codes.

15 (h) By order, revoke, after due notice and hearing, the permit of any person  
16 that fails to comply with the rules and regulations promulgated pursuant  
17 to this Act, the Gas Transmission Code, *the* Gas Distribution Code, or any  
18 requirement of this Act. The DOE shall allow such persons sufficient time  
19 to remedy the violation of or for an orderly disgorgement, when  
20 applicable, but in no case shall such remediation period exceed twelve (12)  
21 months from the date of issuance of the order;

22 (i) Encourage private enterprises in the Downstream Natural Gas Industry to  
23 broaden their ownership base and promote widest public ownership  
24 thereof;

25 (j) Formulate, in consultation with the Downstream Natural Gas Industry  
26 participants, the rules and regulations as may be necessary to implement  
27 the objectives of this Act;

28 (k) Exercise original and exclusive jurisdiction over all cases contesting  
29 permits, nonprice regulation, fees, fines and penalties imposed by it in the  
30 exercise of the abovementioned powers and functions; and

1 (l) Exercise such other powers and functions as may be necessary or  
2 incidental to attain the objectives of this Act. Subject to existing rules and  
3 regulations, the DOE is hereby authorized to create offices and appoint  
4 personnel thereto as may be necessary to efficiently and effectively  
5 perform its functions as stipulated in this Act.

6 SEC. 6. *Powers and Functions of the ERC.* - In addition to its existing powers and  
7 functions, the ERC shall have the sole regulatory responsibility for establishing the  
8 rates and related terms and conditions of service for the transmission, distribution  
9 and supply of natural gas to the extent that such activities are regulated pursuant to  
10 the requirements set forth in this Act. It shall:

11 (a) Within one year from the effectivity of this Act, promulgate, upon due  
12 notice and public consultation, rules and regulations to promote  
13 competition and prohibit/penalize abuse of market power, cartelization  
14 and any anti-competitive or discriminatory behavior, in order to further  
15 the intent of this Act and protect the public interest. Such rules and  
16 regulations shall:

17 (i) Define the relevant product and geographic markets for purposes  
18 of establishing anti-competitive conduct;

19 (ii) Provide criteria to determine the relevant market structure; and

20 (iii) Establish the periodic reportorial requirements of the Downstream  
21 Natural Gas Industry participants as may be necessary to enforce  
22 the provisions of this section.

23 (b) In the public interest, establish and enforce a methodology for setting  
24 transmission, distribution and supply rates, taking into account all  
25 relevant Considerations, including the efficiency or inefficiency of the  
26 regulated entities. The rates must be such as to allow the recovery of just  
27 and reasonable costs and a reasonable return to enable the entity to  
28 operate viably. The ERC may, upon due notice and public consultation,  
29 adopt internationally accepted rate setting methodology. The rate setting  
30 methodology so adopted and applied shall promote efficiency and ensure  
31 a reasonable price or tariff. The rates prescribed shall be  
32 nondiscriminatory;

- 1 (c) Apply administrative procedures that will ensure the constitutional right  
2 to due process;
- 3 (d) Before the end of April of each year, submit to the Office of the President  
4 of the Philippines and Congress, copy furnished the DOE, an annual  
5 report containing such matters or cases which have been filed before or  
6 referred to it during the preceding year, the actions and proceedings  
7 undertaken and its decision or resolution in each case. The ERC shall make  
8 copies of such report available to any interested party upon payment of a  
9 charge which reflects the printing costs;
- 10 (e) Publish in newspapers of general circulation all its decisions involving  
11 rates and anticompetitive cases; and
- 12 (f) Exercise such other powers as may be necessary or incidental to attain the  
13 objectives of this Act.

14 Subject to existing rules and regulations, the ERC is hereby authorized  
15 to create offices and appoint personnel thereto as may be necessary to  
16 efficiently and effectively perform its functions as stipulated in this Act.

17 **CHAPTER III**  
18 **ORGANIZATION AND OPERATION OF THE DOWNSTREAM NATURAL**  
19 **GAS INDUSTRY**

20 *SEC. 7. Organization.* - For purposes of this Act, the Downstream Natural Gas  
21 Industry shall be divided into three sectors, namely: transmission of natural gas,  
22 distribution of natural gas and supply of natural gas.

23 *SEC. 8. Regulation of Transmission, Distribution and Supply Sectors.* - The  
24 transmission, distribution and supply of natural gas are businesses affected with  
25 public interest and the regulation of these businesses as provided for in this Act is  
26 hereby deemed necessary in the public interest.

27 *SEC. 9. Franchise Requirement.* -

28 (a) Transmission and distribution of natural gas declared public utility  
29 operations. - The transmission and distribution of natural gas as provided  
30 for in this Act are hereby declared to be public utility operations, requiring  
31 a franchise;

1 (b) Franchise. - Any person that seeks to operate for commercial purposes a  
2 gas transmission system or gas distribution system shall be required to  
3 obtain a franchise, any law to the contrary notwithstanding. The franchise  
4 requirement shall apply with respect to all gas transmission systems and  
5 gas distribution systems, regardless of the size or pressure of the pipeline.  
6 The foregoing, notwithstanding, this franchise requirement shall not apply  
7 to:

8 (i) Holders of service contracts which authorizes the construction and  
9 operation of facilities for the transmission of natural gas only to the  
10 extent that such facilities are: (1) for own use; (2) used to transport  
11 natural gas from the point of extraction or production to the  
12 processing or gathering facility; and (3) used to provide service to  
13 existing customers or such person under a gas supply contract  
14 entered into prior to the effectivity of this Act, which gas supply  
15 contract shall not be affected by &e enactment of this Act.

16 However, the operation of any pipeline facility used to serve or  
17 deliver natural gas to third persons, whether or not such facility  
18 was, prior to such operation, previously utilized only as a  
19 gathering facility, shall require a franchise.

20 (ii) Operators of pipeline facilities to transport natural gas for their  
21 own use: Provided, however, That such operators shall secure a  
22 permit from the DOE as provided herein; and

23 (iii) Operators of related facilities that are operated independently  
24 from the pipeline.

25 The franchise so granted shall include a provision that shall  
26 honor and protect the forty percent (40%) share of local  
27 government units (LGUs) from the proceeds of the gross collection  
28 derived by the national government from its share in any  
29 coproduction, joint venture or production-sharing agreement in  
30 the utilization and development of the national wealth within their  
31 territorial jurisdiction, pursuant to Article X, Section 7 of the  
32 Constitution and Section 290 of Republic Act No. 7160, otherwise  
33 known as the Local Government Code of 1991, as amended. The  
34 share of the LGU concerned shall be included automatically in the

1                   General Appropriations Act following the year the revenue was  
2                   generated.

3           (c) Prior regulatory approvals. - The grantee of such franchise shall also be  
4           required to secure from the DOE a permit as provided herein, and to secure  
5           from the appropriate government agencies all other regulatory approvals,  
6           licenses, permits and authorizations applicable to such grantee under existing  
7           laws. The DOE shall not unreasonably withhold or delay the grant of any  
8           permit, and may not reopen any legislative determination in the review and  
9           grant of any franchise.

10           SEC. 10. *Philippine Ownership Requirement.* - As required under Article XII,  
11           Section 11 of the Constitution of the Republic of the Philippines, no franchise,  
12           certificate, or any other form of authorization of a public utility shall be granted  
13           except to citizens of the Philippines or to- corporations or associations organized  
14           under the laws of the Philippines at least sixty percent (60%) of whose capital is  
15           owned by such citizens.

16

1           SEC. 11. *Third Party Access.* -

2           (a) *Third Party Access Obligation.* - Gas transmission systems and gas  
3           distribution systems excluding those constructed and operated for own use or  
4           as part of gathering facilities of service contractors shall be available for  
5           nondiscriminatory access by third party users which may include parties to a  
6           service contract, suppliers and customers, with due regard to the economic  
7           viability of the operation of such facilities. Such operators shall negotiate in  
8           good faith with third party users the provisions and terms of access in  
9           accordance with the guidelines to be promulgated by the DOE;

10          (b) *Available Capacity.* - Third party access obligations shall apply only to the  
11          available capacity of the gas transmission systems and gas distribution  
12          systems as determined by subtracting from the design capacity of the gas  
13          transmission systems and gas distribution systems the volume of capacity  
14          that is:

15               (i) Used by the owner or operator to serve his own customer; and/ or

16               (ii) Allocated to third parties under transportation contracts.  
17               Nondiscriminatory third party access shall be available to users by  
18               contract with the gas transmission or gas distribution utility. If the  
19               gas transmission or gas distribution utility with available capacity  
20               refuses service to a user or offers discriminatory service, the  
21               affected party may request for the intervention of the ERC. The gas  
22               transmission or gas distribution utility shall be required to file  
23               proof that capacity was not available when service was denied.

24               Gas transmission utilities shall not be obligated to undertake,  
25               nor may the DOE require, the expansion of an existing gas  
26               transmission system to serve additional customers or the sizing of  
27               a gas transmission system for the purpose of increasing capacity to  
28               serve load in excess of the load proposed to be served by the gas  
29               transmission utility. However, in situations where no entity is  
30               interested to build additional transmission capacity in any  
31               franchise area, the DOE may conduct a public bidding and award  
32               the same to the lowest bidder.

1 (c) Deferment of Third Party Access Obligation. - As may be provided in the  
2 permit, the implementation of third party access to gas transmission systems  
3 and gas distribution systems may be deferred where, upon the determination  
4 by the DOE:.

5 (i) It can be demonstrated that such deferment is necessary to enable  
6 the efficient planning of the infrastructure and aggregation of the  
7 initial demand necessary to justify investments in the gas  
8 transmission systems and gas distribution systems; or

9 (ii) It is in the interest of the customers served by the gas transmission  
10 system and gas distribution system to ensure stability of supply.

11 In either case, the DOE may not defer implementation of  
12 third party access for a period longer than three years after  
13 completion of construction in the case of gas transmission systems  
14 and five years after completion of construction in the case of gas  
15 distribution systems: *Provided, however,* That the deferment period  
16 may be extended on reasonable grounds.

17 (d) Approved Access Conditions for Gas Transmission Utilities and Gas  
18 Distribution Utilities. - Prior to the conduct of negotiations with third parties,  
19 a gas transmission utility and a gas distribution utility shall request the DOE  
20 to approve its access conditions in accordance with the third party access  
21 guidelines to be promulgated by the DOE in consultation with the industry  
22 participants.

23 SEC. 12. *Environmental Protection.* - Gas transmission utilities, gas distribution  
24 utilities and suppliers shall comply with all environmental laws, rules, regulations  
25 and standards promulgated by the Department of Environment and Natural  
26 Resources (DENR) and other appropriate governmental agencies.

27

1           SEC. 17. *Gas Transmission Code Compliance.* - All gas transmission utilities shall  
2 ensure the safety,- reliability, adequacy, security, stability and integrity of their gas  
3 transmission systems in accordance with the technical specifications and  
4 performance standards set forth in the Gas Transmission Code to be promulgated by  
5 the DOE. Each gas transmission utility shall submit to the DOE a statement of its  
6 compliance with such technical specifications and performance standards prescribed  
7 in the Gas Transmission Code. Any gas transmission utility that does not comply  
8 with any of the prescribed technical specifications or performance standards shall  
9 include in such statement of compliance an undertaking to comply with said  
10 technical specifications and performance standards within a reasonable time as may  
11 be necessary to ensure safety and reliability, or prevent environmental harm. The  
12 DOE shall, within sixty (60) days upon receipt of such plan, evaluate the same and  
13 notify the gas transmission utility concerned of its decision thereon. Failure to  
14 submit a feasible and credible plan and/or failure to implement the same shall serve  
15 as grounds for the imposition of appropriate sanctions, fines or penalties pursuant to  
16 Section 39 of this Act.

17           SEC. 18. *ERC Rate Regulation of Gas Transmission Utilities.* - Gas Transmission  
18 Rate. Except as otherwise provided during the infrastructure development period,  
19 the ERC shall review and approve the rates, charges and other amounts proposed to  
20 be charged by the gas transmission utilities as provided under Section 33 of this Act.  
21 Where such rates are applicable to services provided to captive markets, the  
22 ratemaking methodology to be applied by the ERC shall be based on the principle of  
23 full recovery of prudent and reasonable costs incurred, including a reasonable return  
24 on rate base that is consistent with the encouragement of private investment and  
25 goal of developing a Downstream Natural Gas Industry infrastructure, or such other  
26 principles that will promote the determination of just and reasonable rates. Where a  
27 rate applicant successfully demonstrates that its rates will be applicable to  
28 contestable markets, the ERC shall have the authority to permit negotiated rates.

**CHAPTER V**  
**DISTRIBUTION SECTOR**

12  
13  
14  
15  
16  
17  
18  
19  
20

SEC. 19. *Permit.* - No person or entity shall undertake the construction, operation and maintenance of a natural gas distribution system unless it has secured a franchise: Provided, however, That for a period not exceeding five years after the effectivity of this Act, the DOE may issue a provisional permit with a maximum term of two years, renewable twice for a maximum cumulative term not exceeding six years for the continued operation of a gas distribution system constructed prior to and in operation as of the date of effectivity of this Act: Provided, further, That during the same period, the DOE may issue a permit for the expansion, extension or modification of a natural gas distribution system.

21  
22  
23  
24  
25  
26  
27  
28

The DOE shall issue a public notice of all permit applications and afford interested parties an opportunity to comment on such applications. The DOE shall issue a permit upon its determination that the construction, ownership, control, installation, operation and maintenance of the gas distribution systems would be consistent with the policy declarations contained in this Act: Provided, however, That if a permit is sought for new service that would be provided within the franchise area of another gas distribution utility, the DOE shall consider the economic effects of granting such a permit upon the gas distribution utility and its customers.

29  
30  
31  
32

SEC. 20. *Terms and Conditions of Permits.* - In issuing a permit, the DOE shall have the power to impose such reasonable term and conditions to a permit as the public interest may require. Among such conditions shall be the requirement that the permit holder comply in full with the Gas Distribution Code promulgated by the DOE pursuant to Section 5(g) of this Act.

SEC. 21. *Fees.* - The DOE shall have the authority to prescribe and collect fees and charges relating to the issuance and/or review of permits, supervision and regulation of gas distribution systems.

SEC. 22. *Abandonment of Gas Distribution Systems.* - No holder of a permit for the construction, installation, operation or maintenance of a gas distribution system shall abandon or withdraw from service any portion of such gas distribution system without obtaining prior authorization from the DOE, which determination shall be

1 made within one hundred eighty (180) days from the filing of the application for  
2 abandonment. Such abandonment shall be done in accordance with existing laws.

3       SEC. 23. *Gas Distribution Code Compliance.* - All gas distribution utilities shall  
4 be required to ensure and maintain the safety, reliability, adequacy, security,  
5 stability and integrity of their gas distribution systems in accordance with the  
6 performance standards set forth in the Gas Distribution Code to be promulgated by  
7 the DOE. Each gas distribution utility shall submit to the DOE a statement of its  
8 compliance with the technical specifications prescribed in the Gas Distribution Code  
9 and the performance standards prescribed in the implementing rules and  
10 regulations promulgated by the DOE pursuant to Section 43 of this Act. A gas  
11 distribution utility that fails to comply with any of the prescribed technical  
12 specifications or performance standards shall include within such statement of  
13 compliance a plan for achieving compliance with the said technical specifications  
14 and performance standards within a reasonable time as may be necessary to ensure  
15 safety and reliability, or prevent environmental harm. The DOE shall, within sixty  
16 (60) days from receipt of such plan, evaluate the same and notify the gas distribution  
17 utility concerned of its decision thereon. Failure to submit a feasible and credible  
18 plan and/or failure to implement the same shall serve as grounds for the imposition  
19 of appropriate sanctions, fines or penalties pursuant to Section 39 of this Act.

20       SEC. 24. *Gas Distribution Rate.* - Except as provided for during the  
21 infrastructure development period, the distribution rates charged by gas distribution  
22 utilities shall be subject to regulation by the ERC based on the principle of full  
23 recovery of prudent and reasonable economic costs incurred, including a reasonable  
24 return on rate base that is consistent with the encouragement of private investment  
25 and goal of developing the Downstream Natural Gas Industry infrastructure, or  
26 such other principles that will promote the determination of just and reasonable  
27 rates by the ERC. Where a rate applicant successfully demonstrates that its rates will  
28 be applicable to contestable markets, the ERC shall have the authority to permit  
29 negotiated rates.

30       SEC. 25. *Functions of Gas Distribution Utilities.* - All gas distribution utilities  
31 shall have the following functions:

- 32       (a) Obligation to provide distribution services and connections to its gas  
33       distribution system for any end-user within the area covered by its permit

1 consistent with the Gas Distribution Code. Any gas distribution utility  
2 engaged therein shall provide nondiscriminatory access to its gas distribution  
3 system to suppliers and/or end-users entitled to retail access under Section 30  
4 of Chapter VII of this Act. Any gas distribution utility shall be entitled to  
5 impose and collect from such suppliers and/or end-users distribution charges  
6 and connection fees as approved by the ERC after due notice and hearing;

7 (b) Ensure the safety, reliability, adequacy, security, stability and integrity of  
8 their gas distribution systems in accordance with the technical specifications  
9 and performance standards set forth in the Gas Distribution Code to be  
10 promulgated by the DOE pursuant to Section 5(g) of this Act. Each gas  
11 distribution utility shall submit to the ERC a statement of its compliance with  
12 such technical specifications and performance standards. Any gas distribution  
13 utility that fails to comply with any of the prescribed technical specifications  
14 or performance standards shall include in such statement of, compliance an  
15 undertaking to comply with said technical specifications and performance  
16 standards within a reasonable time as may be necessary to ensure safety and  
17 reliability, or prevent environmental harm. The ERC shall, within sixty (60)  
18 days upon receipt of such plan, evaluate the same and notify the gas  
19 distribution utility concerned of its decision thereon. Failure to submit a  
20 feasible and credible plan and/or failure to implement the same shall serve as  
21 grounds for the imposition of appropriate sanctions, fines or penalties  
22 pursuant to Section 39 of this Act;

23 (c) Provide universal service within the area covered by its permit except as  
24 provided herein. Compliance with the universal service obligation shall be  
25 addressed as part of the annual development and maintenance plan of a gas  
26 distribution utility. A gas distribution utility shall be obliged to develop and  
27 maintain an efficient system for the distribution of natural gas at the  
28 reasonable request of end-users within its franchise area including:

29 (i) The installation of pipes where the connection to the end-user is  
30 within twenty-five (25) meters of the gas distribution system; or

31 (ii) Increasing the capacity of existing gas distribution systems:  
32 Provided, however, That no new service shall be required if such  
33 service would not be economically viable. A determination by a

1 gas distribution utility that it cannot viably serve a portion of its  
2 franchise area shall be subject to review by the ERC upon filing of  
3 a complaint by the requesting end-user.

4 The obligation of the gas distribution utility to provide  
5 universal access involves both an obligation to connect end-users  
6 within twenty-five (25) meters from the main pipeline and an  
7 obligation to supply such end-users, to the extent the distribution  
8 utility is the sole gas supplier. Upon implementation of third party  
9 access, the utility shall be relieved of its obligation to supply end-  
10 users eligible for retail access as defined in the guidelines to be  
11 promulgated by the DOE, but not its obligation to provide  
12 connection to its distribution system to such end-users. Whether or  
13 not the gas distribution utility is the sole gas supplier in the area,  
14 prices charged by the said utility for the supply of gas shall be  
15 negotiated for the contestable market and regulated by the ERC for  
16 the captive market; and

17 (d) Submit annually to the ERC its plan for maintaining and developing its gas  
18 distribution system in compliance with the obligations prescribed in this Act.

19 **CHAPTER VI**  
20 **SUPPLY SECTOR**

21 SEC. 26. *Permit Requirement.* - Any law to the contrary notwithstanding, no  
22 person may engage in any supply activity unless it has obtained a permit from the  
23 DOE, initially: Provided, however, That a gas transmission utility or gas distribution  
24 utility that has secured a permit as such pursuant to Section 9(c) of this Act and that  
25 supplies natural gas to its own customers shall not be required to secure a separate  
26 permit to engage in its supply activity. For this purpose, the DOE shall promulgate  
27 rules and regulations prescribing the qualifications of suppliers which shall include,  
28 among other requirements, a demonstration of their technical capability, financial  
29 capability, creditworthiness and compliance with safety standards. The DOE shall  
30 have the authority to require suppliers to furnish a bond or other evidence of their  
31 ability to withstand market disturbances or other events that may increase the cost of  
32 providing service.

33 SEC. 27. *Supplier Rate and Service Regulation.* -

1 (a) The rates and service of suppliers to captive markets shall be regulated by the  
2 ERC; and

3 (b) The rates and service of suppliers to contestable markets shall not be subject  
4 to regulation by the ERC Provided, however, That suppliers shall be subject to  
5 the rules and regulations concerning abuse of market power, cartelization and  
6 other anti-competitive or discriminatory behavior promulgated by the ERC.

7 (c) The supply of natural gas for electric generation and large end-users is hereby  
8 deemed to be a contestable market. In all other cases, suppliers shall bear the  
9 burden of demonstrating that a market is contestable.

10 SEC. 28. *Conditions for Retail Access to Gas Distribution Systems.* - Following the  
11 infrastructure development period, retail access to gas distribution systems shall be  
12 available to large end-users meeting criteria set forth in the rules and regulations  
13 promulgated by the ERC pursuant to this Act. The ERC shall determine when retail  
14 access may be available to other end-users or classes of end-users, giving  
15 consideration to relevant factors including whether such end-users or class of end-  
16 users constitute a contestable market-end the financial consequences of any assets  
17 potentially stranded by expanding retail access.

18 **CHAPTER VII**  
19 **TAXATION**

20 SEC. 29. *Taxes.* - Gas transmission utilities, gas distribution utilities and  
21 suppliers of natural gas shall be subject to the payment of all taxes, duties, fees or  
22 charges and other impositions under the National Internal Revenue Code (NIRC) of  
23 1997, as amended, and other applicable laws: Provided, however, That, in  
24 recognition of the substantial investments needed for the construction, operation and  
25 maintenance of gas transmission and gas distribution systems, gas transmission  
26 utilities and gas distribution utilities shall, upon prior endorsement by the DOE and  
27 approval by the Board of Investments, be entitled to income tax holiday and such  
28 other incentives granted to pioneer enterprises under the Omnibus Investment Code,  
29 as amended. The commodity price of gas shall be the only component of the gas  
30 retail rate which shall be subject to excise taxes under Republic Act No. 8424,  
31 otherwise known as the Comprehensive Tax Reform Law.

32

1 of supporting papers duly verified or authenticated, and with such notice to  
2 the affected parties and opportunity for such parties to make such  
3 submissions as the ERC determines to be appropriate in the circumstances,  
4 grant provisional relief fixing interim rates for the transmission of natural gas  
5 or distribution of natural gas or supply of natural gas to the captive market  
6 applicable during the pendency of the hearing on the application, on motion  
7 of a party in the case or on its own initiative, without prejudice to a final  
8 decision after hearing, should the ERC find that the pleadings, together with  
9 such affidavits, documents and other evidences which may be submitted in  
10 support of the motion, substantially support the provisional order. The final  
11 order fixing the applicable rates shall provide for over- or under-recovery of  
12 costs occasioned by the application of ERC-approved interim rates. At any  
13 hearing involving rates adjustment, the burden of proof to show that the  
14 increased rates are just and reasonable shall be upon the gas transmission  
15 utility, gas distribution utility or supplier to the captive market.

16 **CHAPTER IX**  
17 **PROMOTION OF COMEPTITION**

18 SEC. 32. *Anti-Competitive Behavior.* - No gas transmission utility, gas  
19 distribution utility or supplier, or affiliate thereof, may engage in any anti-  
20 competitive behavior or abuse of market power including, but not limited to:

21 (a) Agreements, decisions and concerted practices of persons or associations of  
22 persons to fix prices and/or fix output; and

23 (b) Other practices and/or conduct by a person or groups of persons that restrict,  
24 prevent or distort competition such as, but not limited to, predatory pricing  
25 and practices, excessive pricing, bundling and other vertical restraints, denial  
26 of access to essential facilities on fair terms, discriminatory conditions on  
27 transactions that restrict, prevent or distort competition.

28 SEC. 33. *Measures to Promote Competition.* - Subject to the provisions of relevant  
29 laws, the ERC shall adopt measures and/or corresponding remedies to promote  
30 competition following an investigation of the relevant circumstances and a definitive  
31 finding of:

32 (a) Price and/or output fixing; or

1 (b) Other practices/conduct that are the subject of investigation restrict and/or  
2 prevent and/or distort competition.

3 Such remedies shall, without limitation, include the imposition of price  
4 controls, issuance of injunctions or disgorgement of excess profits and imposition of  
5 administrative fines and penalties pursuant to this Act.

6 SEC. 34. *Functional and Structural Unbundling.* - When prevailing market  
7 conditions so require, any Downstream Natural Gas Industry participant shall  
8 functionally and structurally unbundle its business activities and rates in accordance  
9 with the sectors as identified in Section 7 hereof. The ERC shall ensure full  
10 compliance with this provision.

11 SEC. 35. *Complaint Procedures.* - The ERC shall, within one year from the  
12 effectivity of this Act, promulgate rules and regulations providing for a complaint  
13 procedure that, without limitation provides the party alleged to have engaged in  
14 anti-competitive or abusive activities with notice and an opportunity to be heard.

15 SEC. 36. *Affiliated Suppliers.* - In order to prevent anti-competitive conduct,  
16 service contractors, gas transmission utilities and gas distribution utilities that own  
17 or control affiliates that are suppliers shall conduct their business as follows:

18 (a) No preference will be given to the affiliated supplier over other persons  
19 through contracting for available capacity, scheduling, balancing, curtailment  
20 priority or tariffs;

21 (b) Marketing information provided to the affiliated supplier will be provided to  
22 any nonaffiliated supplier that is a competitor or potential competitor;

23 (c) Employees of the affiliated supplier shall, to the maximum extent possible,  
24 function independently in making business decisions; and

25 (d) Books of accounts and records of the affiliated supplier shall be maintained  
26 separately.

27 As used herein, "affiliate" refers to any person or entity which, alone or  
28 together with any other person or entity, directly or indirectly, through one or  
29 more intermediaries, controls, or is controlled by another person or entity. As

1 used herein, "control" shall mean the power to direct or cause the direction of  
2 the management policies of a person by contract, agency or otherwise.

3 *SEC. 37. Administrative Fines and Penalties. -*

- 4 (a) The administrative fines and penalties that may be imposed by the ERC or the  
5 DOE, as the case may be, for any violation of or noncompliance with this Act  
6 or its implementing rules and regulations shall range from a minimum of  
7 Fifty thousand pesos (P50,000.00) to a maximum of Fifty million pesos  
8 (P50,000,000.00);
- 9 (b) Any person who is found to have engaged in any of the prohibited acts  
10 pursuant to Section 34 of this Act shall suffer the administrative penalty or  
11 fine ranging from Ten thousand pesos (P10,000.00) to Ten million pesos  
12 (P10,000,000.00), at the discretion of the ERC or the DOE, as the case may be;
- 13 (c) The members of the board of directors or any person that violates the  
14 provisions of this Act may be fined by an amount not exceeding double the  
15 amount of damages caused by the offender at the discretion of the ERC or the  
16 DOE, as the case may be. This rule shall apply to the members of the Board  
17 who, knowingly or by neglect, allow the commission or omission under the  
18 law;
- 19 (d) Any party to an administrative proceeding may, at any time, make an offer to  
20 the ERC or the DOE, as the case may be, conditionally or otherwise, for a  
21 consent decree, voluntary compliance or desistance and other settlement of  
22 the case. The offer and any or all of the ultimate facts upon which the offer is  
23 based shall be considered for settlement purposes only and shall not  
24 constitute an admission by the party making the offer of any violation of the  
25 laws, rules, regulations, orders and resolutions of the ERC or the DOE, as the  
26 case may be, nor as a waiver to file any warranted criminal actions; and
- 27 (e) Congress may, upon recommendation of the ERC or the DOE, as the case may  
28 be, revoke such franchise or privilege granted to the party found in violation  
29 of the provisions of this Act.

30 **CHAPTER X**  
31 **ANTI-PILFERAGE AND ANTI-THEFT PROVISIONS**

32 *SEC. 38. Pilferage. - It is hereby declared unlawful for any person to:*

1 (a) Tap, make or cause to be made any connection with any gas transmission  
2 system or gas distribution system without previous authority or consent of  
3 the gas transmission utility or gas distribution utility concerned;

4 (b) Tamper, install or use tampered meters or any other device which interferes  
5 with proper or accurate registry or metering of natural gas flows or otherwise  
6 results in its diversion in a manner whereby natural gas is stolen or wasted;

7 (c) Damage or destroy any natural gas meter, equipment, pipeline or conduit or  
8 any part of a gas transmission system or gas distribution system or allow any  
9 of them to be so damaged or destroyed as to interfere with the proper or  
10 accurate metering of natural gas flows; and

11 (d) Knowingly use or receive the direct benefit of natural gas delivery service  
12 obtained through any of the acts mentioned in paragraphs (a), (b) and (c)  
13 above.

14 SEC. 39. *Theft of Equipment and Materials.* - It is hereby declared unlawful for  
15 any person to:

16 (a) Cut, saw, slice, separate, split, severe, smelt or remove any portion of a gas  
17 transmission system or gas distribution system, including pipeline materials  
18 and meters, from any installation or place of installation or any other place or  
19 site where it may be rightfully or lawfully stored, deposited, kept, stocked,  
20 inventoried, situated or located, without the consent of the gas transmission  
21 utility or gas distribution utility concerned, whether or not the act is done for  
22 profit or gain;

23 (b) Take, carry away or remove or transfer, with or without the use of a motor  
24 vehicle or other means of conveyance, load, carry, ship or move from one  
25 place to another, whether by land, air or sea, any portion of a gas transmission  
26 system or gas distribution system, including pipeline materials or meters,  
27 from any installation or place of installation, or any place or site where it may  
28 be rightfully or lawfully stored, deposited, kept, stocked, inventoried, situated  
29 or located without the consent of the gas transmission utility or gas  
30 distribution utility concerned, whether or not the act is done for profit or gain;  
31 and

1 (c) Store, possess or otherwise keep in his premises, custody or control, without  
2 lawful purpose, any portion of a gas transmission system or gas distribution  
3 system, including pipeline materials or meters, without the consent of the gas  
4 transmission utility or gas distribution utility concerned, whether or not the  
5 act is done for profit or gain.

6 SEC. 40. *Penalties.* -

7 (a) Violation of Section 40. - The penalty of prison mayor or a fine ranging from  
8 Ten thousand pesos (P10,000.00) to Twenty thousand pesos (P20,000.00) or  
9 both, at the discretion of the court, shall be imposed on any person found  
10 guilty of violating Section 40 of this Act.

11 (b) Violation of Section 41. - The penalty of reclusion temporal or a fine ranging  
12 from Fifty thousand pesos (P50,000.00) to One hundred thousand pesos  
13 (P100,000.00) or both, at the discretion of the court, shall be imposed on any  
14 person found guilty of violating Section 41 of this Act.

15 (c) Provision common to violations of Sections 40 and 41 hereof. - If the violation  
16 of Section 40 or Section 41 of this Act is committed by, or in connivance with,  
17 an officer or employee of the gas transmission utility or gas distribution utility  
18 concerned, such officer or employee shall, upon conviction, be punished with  
19 a penalty one degree higher than the penalty provided herein, and forthwith  
20 be dismissed and perpetually disqualified from employment in any public or  
21 private utility or service company and from holding any public office.

22 If the violation of Section 40 or Section 41 of this Act is committed by a  
23 partnership, firm, corporation, association or any other legal entity, including  
24 a government-owned or -controlled corporation, the penalty shall be imposed  
25 on the president, manager and each of the officers thereof who shall have  
26 knowingly permitted, failed to prevent or was otherwise responsible for the  
27 commission of the offense.

28 **CHAPTER XI**  
29 **FINAL PROVISIONS**

30 SEC. 41. *Implementing Rules and Regulations.* - The DOE shall, in consultation  
31 with the ERC, appropriate government agencies, the Downstream Natural Gas  
32 Industry participants, nongovernmental organizations and end-users, promulgate

1 implementing rules and regulations (IRR) within six months from the effectivity of  
2 this Act.

3       SEC. 42. *Natural Gas Oversight Commission.* - Upon the effectivity of this Act, a  
4 congressional commission, hereinafter referred to as the "Natural Gas Oversight  
5 Commission", is hereby constituted. The Natural Gas Oversight Commission shall be  
6 composed of ten (10) members, with the chairmen of the Committee on Energy of  
7 the Senate and the House of Representatives and four additional members from each  
8 House, to be designated by the Senate President and the Speaker of the House of  
9 Representatives, respectively. The minority shall be entitled to pro rata  
10 representation but shall have at least one representative in the Natural Gas  
11 Oversight Commission.

12       (a) The Natural Gas Oversight Commission shall, in aid of legislation, perform  
13 the following functions, among others:

14       (b) Set the guidelines and overall framework to monitor the proper  
15 implementation of this Act;

16       (c) Look into the appropriateness of creating a single independent regulatory  
17 body when the conditions prevailing so require;

18       (d) Conduct a periodic review of this Act at least once every three years;

19       (e) Determine inherent weaknesses in the law and recommend necessary  
20 remedial legislation or executive measures;

21       (f) Approve the budget for the programs of the Natural Gas

22       (g) Oversight Commission and all disbursements therefrom, including  
23 compensation of all personnel;

24       (h) Submit periodic reports to the President of the Philippines and Congress; and

25       (i) Perform such other powers and functions as may be necessary to attain its  
26 objectives.

27       To carry out its powers and functions, the initial sum of Fifteen million pesos  
28 (P15,000,000.00) shall be charged against the current appropriations of the Senate.

1    Thereafter, such amount necessary for its continued operation shall be included in  
2    the annual General Appropriations Act.

3           The Natural Gas Oversight Commission shall adopt its internal rules of  
4    procedure; conduct hearings and receive testimonies, reports and technical advice;  
5    invite or summon by subpoena *ad testificandum* any public official, private individual  
6    or any other person to testify before it, or require any person by subpoena *duces*  
7    *tecum* to produce before it such records, reports, documents or other materials as it  
8    may require; and generally require all the powers necessary to attain the purposes  
9    for which it is created. The Natural Gas Oversight Commission shall be assisted by a  
10   secretariat to be composed of personnel who may be seconded from the Senate and  
11   the House of Representatives and may retain consultants. The secretariat shall be  
12   headed by an executive director who has sufficient background and competence on  
13   the policies and issues relating to the Downstream Natural Gas Industry reforms as  
14   provided in this Act.

15           SEC. 43. *Separability Clause.* - If, for any reason, any provision of this Act is  
16   declared unconstitutional or invalid, the other parts or provisions hereof which are  
17   not affected thereby shall continue to be in full force and effect.

18           SEC. 44. *Nonretroactivity, Applicability and Repealing Clause.* - The provisions of  
19   Republic Act No. 387, otherwise known as the "Petroleum Act of 1949", as amended,  
20   Presidential Decree No. 87, Republic Act No. 8997, and all other laws, decrees,  
21   executive orders, rules and regulations, circulars and other issuances inconsistent  
22   with the provisions of this Act are hereby repealed or modified accordingly.

23           SEC. 45. *Transitory Provision.* - Gas transmission systems and gas distribution  
24   systems that have been constructed and have commenced operation prior to the date  
25   of effectivity of this Act shall continue to operate under their existing authorities:  
26   Provided, That they have complied with existing laws, rules and regulations prior to  
27   the effectivity of this Act and have secured a provisional permit from the DOE as  
28   provided in Sections 15 and 21 of this Act. Suppliers who have entered into gas sales  
29   and purchase contracts with customers and have delivered indigenous or imported  
30   natural gas under said contracts prior to the date of effectivity of this Act shall  
31   continue to sell natural gas under their existing authorities provided they have  
32   complied with existing laws, rules and regulations prior to the effectivity of this Act.

1           Nothing in this Act shall be deemed to revoke or otherwise modify the  
2 powers and functions of the Philippine National Oil Company and its subsidiaries  
3 under Presidential Decree No. 334, as amended, any existing concession granted  
4 under the Petroleum Act of 1949, as amended, certificate of public convenience or  
5 certificate of public convenience and necessity granted pursuant to the Public Service  
6 Law, as amended, specific franchise for the transmission, distribution or supply of  
7 natural gas or other administrative or regulatory permit or contract, which  
8 concession, certificate, franchise, permit or contract shall be allowed to its full term  
9 but may not be renewed except pursuant to the provisions of this Act.

10           For a period not exceeding five years after the effectivity of this Act, the DOE  
11 may issue provisional permits, with a maximum term of two years, renewable twice  
12 for a maximum cumulative term not exceeding six years, for the construction,  
13 operation and maintenance of pipelines and related facilities for the transmission,  
14 distribution and supply of natural gas.

15           SEC. 46. *Effectivity Clause.* - This Act shall take effect on the fifteenth (15th)  
16 day following its publication in the Official Gazette and in at least two national  
17 newspapers of general circulation.

18           *Approved,*
