Senate Bill No. 1082

Introduced by SENATOR JOSEPH VICTOR G. EJERCITO

EXPLANATORY NOTE

Throughout history, music has helped define a country's identity. From the kulintang, the kundiman to what is called the Manila Sound, music has inspired countless of Filipinos to love, live and embrace life.

But online piracy and limited airplay has hurt the growth of the local music industry. Figures released by the Philippine Association of the Record Industry showed that sales of physical audio and video dropped from P2,154,764 in 2000 to P699,360 in 2010.

Although music ring tones and digital copies created a new revenue source, the cost of producing and promoting a new song remains high for record labels. Promoting a new song is difficult in an environment that gives more radio time to foreign songs.

The issue of airplay is nothing new. In 1987, President Corazon C. Aquino issued Executive Order 255 to give original Pilipino music more airtime. The directive requires radio stations to play at least four original Pilipino musical compositions in every clock hour of a program with a musical format.

Any franchise holder or radio station operator violating the EO will be fined P100. The National Telecommunications Commission may also suspend or cancel the Certificate of Registration and Authority to operate of any radio station in the event of repeated violations.

More than 20 years after the directive was signed, airplay remains a concern. In August of last year, President Benigno S. Aquino III ordered the National Telecommunications Commission to enforce the measure. The order

was issued during the Organisyon ng Pilipinong Mangaawit's oath taking ceremonies.

There is a need to review the EO in light of advancements in technology and program formats.

A country will never be able to develop its own identity by singing songs of another.

The immediate approval of this bill is earnestly sought.
